**Physical fitness and experience requirements**

This trek is suitable for everyone, but it is not easy to trek. Every trekker needs to walk around 4-5 hours a day with a light day pack. Exercising and jogging regularly for a few weeks before the trip is an excellent idea to improve strength and stability. Previous knowledge of hiking would be a bonus, but technical expertise is not required for this trip. Participants with existing diseases such as heart, lung, and blood diseases must inform us before booking the walk. We also recommend that you consult your doctor before travelling.
